

Project name: Experience Renewable Energies II

Project code: DE-SCI 11.53

Country: Germany

Dates: 6th - 20th August

Topic: Climate and Sustainable Lifestyle

Type of work: Environment / Manual / Study

Total Number of volunteers: 12

Volunteer Age Range: 18+

Language: English

Wheelchair accessible: No

Description: Energy transition without dependence on gas, oil, coal - (how) is that possible? The Centre for Sustainable Development "artefact" is 100% self-sufficient in renewable energies. In Glücksburg on the Flensburg Fjord near the Danish border, "artefact" runs a guest house built on clay architecture, a climate park, and runs project days and seminars on global education. These facilities need to be maintained, repaired and extended. Volunteers will help to ensure the park remains attractive for visitors.

Work: Construction of a wooden workshop, repair work and further development of the climate park for visitors, planting a water reservoir, maintenance work on the grounds such as painting, weeding, etc.

Study Theme: Climate change, use of renewable energies, possible strategy game "Changing the Game" to simulate a European energy transition. How are (in)dependence on fossil energies, democracy and peace connected? All volunteers are welcome and Ukrainian, Russian and other Eastern European volunteers are especially invited.

Accommodation: Volunteers will stay in their own tent on the Climatepark site, (bring a tent, a sleeping mat and a thick sleeping bag); compost toilets and solar showers available.

Requirements: Interest in the topic of climate protection and renewable energies; openness to basic living conditions; manual skills helpful.

Location: Glücksburg, near Flensburg.

Notes: Leisure time: there is the possibility to visit a moated castle, an excursion to the Baltic Sea, Flensburg and Denmark etc.
